

*the Cargo Family.*

Compact. For you.

# We in Europe. For you.

## Andreas Jäschke, Managing Director, VTL:

„We support the **“Logistics heroes”**, a nationwide image campaign of the Wirtschaftsmacher. This initiative advertises with numerous motifs for more attention and attractiveness for the logistics sector. Because logistics is where the people of action, the fighters and the assertive ones are at home – like at VTL.“

# We in Europe. For you.

„the CargoFamily“ VTL was **founded in 1998** and is one of the leading general cargo cooperation and provider of **European-wide logistics solutions**. From Fulda, we connect the medium-sized cargo companies into a comprehensive and intelligent transport service supported by modern IT.

**37,500** trucks are handled annually at the **115 gates** in the central hub in Fulda. The Cargo-Family scores with the good cooperation of its approximately **140 employees** in Fulda and the cohesion between all system partners. In 2012, we created the „**House of Quality**“, a quality and risk management system according to **ISO 9001:2015**, in order to guarantee high quality. The environmental management system is also certified to **ISO 14001:2015**.

The central hub and the regional hubs North and West are networked with fast direct traffic and transport the **general cargo within 24/48 hours** over night. With our system partners „on site“ we offer the individual service of a regional provider, plus Europe-wide logistics solutions of a comprehensive network. The large number of regional services in more than **35 countries** turns into an extensive **supply chain offer**.

In 2018 the entire cooperation achieved sales of around **65 million euros** with **1.37 million consignments** and a total weight of around **533,137 tons**.

We invest a lot of time and energy in the **education and training** of young people and support them extraordinary, for example through a mentoring program for trainees and the VTL trainee exchange or we even make it possible to study.

We offer the option to take responsibility and become successful at young age to especially committed people. Women play a strong role at VTL, more than **70 percent** already occupy management positions.

VTL also promotes the attractiveness of the logistics industry by supporting the nationwide image campaign **“Logistics heroes”**.

Für Sie.

The CargoFamily.

The popular and eye-catching meerkats are the symbol of the VTL general cargo network and advertises the system partners and the general cargo network day by day. One reason is the pronounced social behaviour of the animals. The CargoFamily VTL shares this characteristic with the meerkats: trust, helpfulness and fairness are the most important success factors of the network.
